

Letter to an Older Child, Requesting Assent

Dear Student:

My name is Viet-Hung Nguyen and I am a student in the Department of Psychology at the University of San Francisco. I am asking you to participate in a project that examines well-being and identity.

I am asking you to complete a short questionnaire that will take no more than 30 minutes. There will be questions about yourself and your family. Your parents or legal guardians have already given permission for you to participate in this study, but you do not have to participate if you choose. You may quit this study at any time by simply telling me that you do not want to continue. You can skip any questions or tasks that you do not want to complete. Your participation in this study will not affect your grades in any way. There are no known risks involved in this study and you will receive 30 minutes of class credit for your participation, or you can do the alternative assignment. If you stop the study before completing the survey, you will still receive 30 minutes of credit. To protect your confidentiality, your responses will not be shared with anyone unless required by law. The responses you make will be kept by my professor Dr. Viskontas and me. Neither your teacher nor your parents will know if you chose to participate in this project or will know the answers you provide.

If you have any question about this study, please contact me at vnguyen36@dons.usfca.edu. If you and/or your parent(s)/guardian(s) would like a copy of the consent form, it will be provided upon request.

Viet-Hung Nguyen

BY CLICKING CONTINUE, I CERTIFY THE FOLLOWING:

I agree to participate in this research project and I will receive a copy of this form upon request. The nature and purpose, benefits and possible risks associated with participation in this research have been explained to me. Any questions that have been raised have been answered.
